PRANA RENEWABLE ENERGY PRIVATE LIMITED

ABOUT US

WHO WE ARE

1

PRANA RENEWABLE ENERGY PRIVATE LIMITED (Trade-name PRANA SOLAR) - recognised as one of "10 MOST PROMISING SOLAR EPC COMPANIES 2019" by SiliconIndia, has a rich experience of over 7 years in the Solar EPC sector and a thorough and in-depth understanding of the science and economics of harvesting solar power. With our continuous focus on quality and innovation, we have achieved our distinct brand and position in the EPC sector of India and with time we are growing stronger and bigger.

PRANA SOLAR Value System is based on 3 pillars – **TRUST, PASSION AND ENGINEERING EXCELLENCE.**

We at PRANA SOLAR strive to nurture Trust of all stake-holders, build a Passionate team and vigorously pursue Engineering Excellence in what we do.

2

OUR VISION

There is a great revolution taking place in the world energy industry today. There is a shift in our collective social conscience and it is becoming obvious that time has come to leave behind conventional polluting sources of energy and switch to non-polluting, renewable and sustainable energy sources.

Our VISION is to be part of this "energy revolution" by accelerating the adoption of the latest technologies across India and the world in order to conserve the environment and secure a sustainable and conflict-free power

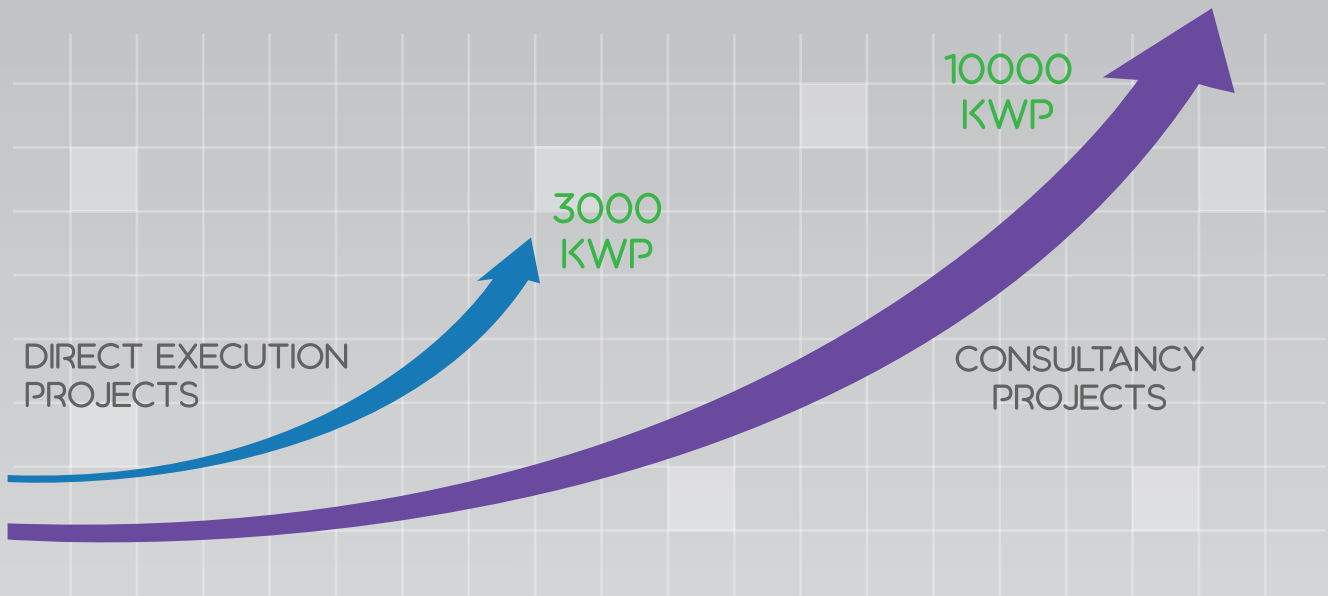

OUR MISSION

3

The financial viability and hence long-term success of a power-plant project is maximised when its maintenance cost is minimised. As we look at a 20 year horizon and a very high rate of evolution of technology, this becomes a difficult target to achieve. In a market flooded with products of various origin and quality, the most important job as a project developer is to choose highest value components to configure a reliable and successful system.

We at **PRANA SOLAR** understand the criticality of the EPC process and plan to partner with only the best OEMs and associates from around the world to design/implement sustainable and large-scale solar power plant projects. We set our MISSION to be among the top 10 Solar EPC Developers in India by 2025.
